

MULTIDISCIPLINARY APPROACH TO FACILITATE EARLY RECOVERY FOR HIP FRACTURE PATIENTS

Register [here](#) for the free webinar on: June 21, 2021 12 – 1:30 PM EST

Dr. ANETTE HYLER RANHOFF: Effectiveness of Orthogeriatric Programs

Dr. Ranhoff is a professor of geriatric medicine at the University of Bergen, and consultant in geriatrics, working as an orthogeriatrician at Diakonhjemmet Hospital, Oslo Norway. Dr. Ranhoff's research interests are in cognition, nutrition, polypharmacy, hip fractures and exercise

AMI HOMMEL: Open Intra Articular Humerus Fracture

Ami Hommel is a Certified Nurse Specialist (CNS) at the Department of Health Sciences and the Department of Orthopaedics, Skånes University hospital, Associate professor, Nursing Education, Lund University, Sweden. She is scientifically and clinically active in the nursing aspect of hip fracture patients involving the whole treatment chain from the fast-track handling already in the ambulance with shortening of waiting time to operation, pre and postoperative care as well as rehabilitations

SEBASTIAN LACKEY, PhD: Hip Fracture Care in Alberta – Using Data to Drive Quality Improvement

Sebastian is the Quality Improvement Manager at the Alberta Bone & Joint Health Institute, an independent, not-for-profit institution that is leading bone and joint health knowledge and research in Alberta. Sebastian completed his Ph.D. in molecular biology and genetics at the University of Alberta before doing post-doctoral work in the field of pharmacology. For the last 7 years he has worked on managing large-scale scientific and health projects across Canada

PANEL DISCUSSION: OPPORTUNITIES FOR CANADA

Our international speakers will be joined by the Canadian researchers to discuss the opportunities and approach for enabling early recovery for hip fracture patients in Canada

Dr. JENNI THAIN (Moderator)

Dr. Thain is an Assistant Professor within the Division of Geriatric Medicine, Western University. She trained at the University of Nottingham, UK, sub-specializing in orthogeriatric medicine. Her areas of clinical interest include osteoporosis and bone health with a particular interest in hip fracture care

DR. PIERRE GUY

Dr. Guy is a Professor and clinician-scientist at UBC Department of Orthopaedics, Division of Orthopedic Trauma. He is the Co-Director of UBC's Centre for Hip Health and Mobility. His research is focused on hip fracture prevention, treatment and post injury function and pelvis/acetabulum fractures

PATRICIA DICKSON

Patricia Dickson is the Advanced Practice Occupational Therapist at Sunnybrook's Holland Bone & Joint Program. With over 20 years of clinical experience, and a special interest in hip fractures, she is a status Lecturer at the University of Toronto and is the Chair of The Ontario Rehab Care Alliance Hip Fracture Task group
